Our Association with Government

Requirement Brief
❑ **Entry and Exit badges for pre-exhibition , during exhibition and after exhibition**

❑ **Service Request Management Module**

❑ **Event Ticketing for B2B and B2C visitors**

Our Understanding of Service Badge Module

❑ **ITPO has requirement of following types of badges**

    ❑ **Exhibitor badges - Valid for duration of exhibition**

    ❑ **Service Badges - Valid for duration of exhibition and before exhibition**

    ❑ **Parking Badges - Valid of duration of exhibition**

    ❑ **Material Entry Slip - Valid before exhibition certain time limit**

    ❑ **Material Exit Slip - Valid after exhibition for certain time limit**

❑ **ITPO Users should be able to setup prices for these batches and define the limit for the same based on each event, size of stall.**

❑ **Validity and duration for the batches should be configurable.**

❑ **Printed badges will generate QR codes with relevant information encoded in the same**

❑ **ITPO users should be able to onboard vendors for construction and other service providers required by participants through portal.**

❑ **ITPO users should be able to configure fee for onboarding and "Extra Passes" requested.**

❑ **System should generate reports indicating number of badges for fairs, stall types and revenue generated.**

❑ **Event participants should be able to request these services online.**

❑ **Integration with Telly and invoice management**

Our Understanding of Service Request Management Module

❑ **Manage All service requests online instead of emails**

❑ **Service request should be visible from their profile.**

❑ **Allocation of request to desired department user (s) for revert if needed.**

❑ **Ability to create sub tasks that can be allocated to other department users**

❑ **Dashboard to track open v/s closed queries, time taken to close and details.**

❑ **Service request should have the option of attach documents and images for reference.**

❑ **Ability to sort issues based on issue category.**

❑ **Ask Follow-ups on existing issue**

❑ **SMS Alerts/Email Alerts**

Ticketing Module

- ❏ Visitors should be able to purchase tickets online for active events
- ❏ Tickets should have QR codes and can be shared with people on SMS, and email.
- ❏ Visitor should be able to buy tickets for single day or for the entire event.
- ❏ Relevant information like fair name, dates , passenger type should be part of QR code details.
- ❏ It should be possible to add promotion details on tickets generated online.
- ❏ ITPO admin should be able to control prices based on passenger type for each ticket.
- ❏ Reports to track revenue generated from the same.
- ❏ Telly Integration for the same based on rules.

PROPOSED Effort And Pricing

Module	Effort	Pricing
Badges Module	58 Days	1,65,300
Service Request Management	35 Days	99,750
Ticketing Module	53 Days	1,51,050
Total	**146 Days**	**4,16,100**
Taxes (@18%)		**74,898**
Total Cost of CRs		**4,90,998 Rs.**

Based on the agreed CR cost of 2850 above the pricing for the project.

THANK YOU
